

For your insurance company

Thank you for ordering our Water Protec cut off valve system that will detect through our WPT water sensors, most water leaks & prevent your home or dwelling unit from future water damage.

By completing this form & submitting it to your insurance company certifies that you installed a water protection system device to reduce or eliminate water leaks in your home or dwelling.

Please submit this form to your local insurance agent informing them of your recent installation of our system, Water Protec TP Products Inc. [Being the world leader in preventive systems by eliminating water damage in residential, industrial and commercial areas.](#)

The certificate will inform the insurer of your new system & may help you save premiums in reducing risk to water damage in your home or dwelling.

We thank you for your trust in Water Protec systems. Please feel free to go to our website for more products from Water Protec, www.water-protec.com or www.waterprotecsystems.com
