

Water Protec[®] – Stopping the Cycle of Unwanted Water

Guarantee GOLD's mission is to address the water challenge beyond merely promoting water mitigation options – and move to providing meaningful solutions for the many types of water damage that every homeowner's assets are exposed to. To meet this challenge, we have responded by promoting mitigation solutions and prevention methods by establishing GOLD Watermark[®] – GUARANTEE GOLD's water mitigation program.

In support of water mitigation solutions, we are pleased to offer all GUARANTEE GOLD clients discounts on several water mitigation devices referred to as automatic water shut-off systems.

Water Protec[®] is a type of sensor-based automatic water shut-off system that provides a water damage mitigation solution for homeowners and is recognized by GUARANTEE GOLD[®].

When installed, GUARANTEE GOLD clients are eligible for a 5% discount for single-family homes and condominiums.

Please note that these discounts are subject to change without notice.
